Service Information

Our South Pacific Link consists of four vessels on which containers, vehicles, and breakbulk cargo can be directly shipped between the Far East and the South Pacific. Moreover, using NYK's worldwide network, merchandise can be transported between locations around the world and the South Pacific.

Our vessels depart from Asia for the South Pacific every 18-20 days. Two different loops ensure coverage throughout the region.

Containers from indirect ports can be transhipped at one of the directly called ports in Asia.

The Fleet

Satisfying Your Transport Needs

Vehicles

Vehicles can be easily and safely driven on and off the rear of the ship and soundly secured in a spacious vehicle deck that rises seven or eight tiers. NYK's efficient Ro-Ro (Roll on, Roll off) operations are supported by expertise that has been developed over NYK's extensive history.

Containers

We regularly ship containers, which allow for the most efficient transport of various kinds of general cargo. Moreover, through transshipment at ports throughout Asia, our global liner network offers a seamless corridor to the South Pacific islands from locations all over the world.

Breakbulk

Our vessels routinely transport various types of breakbulk cargo, such as steel products and project cargoes. In fact, NYK Bulk & Projects Carriers is one of the leading multipurpose vessel operators and offers full-fledged operations to the South Pacific.
